

# Annual Energy Benchmarking Report

June, 2022

## OVERVIEW

This annual report is used to track municipal buildings' energy performance and is created in compliance with a passed Resolution on May 16, 2017. Comparisons between annual reports can provide insights into energy use, including potential cost savings. This report includes only municipal buildings larger than 1,000 sq. ft.

## PROPERTY INFORMATION

This table provides basic information about each municipal building over 1,000 sq. ft. in size.

## ENERGY STAR SCORE

The ENERGY STAR Score is a measure of how well your property is performing relative to similar properties, when normalized for climate and operational characteristics. A 1-100 scale is used so that 1 represents the worst performing buildings and 100 represents the best performing buildings. A score may not be available for certain properties because of use type or insufficient information.
